Alinco Dx-sr8t Mods

>>>CLICK HERE<<<
The Alinco DX-SR9T is an easy-to-use, basic 100 W transceiver for 160 to 10 meters. The DX-SR9T is very similar to the DX-SR8T reviewed in the June 2011.

Adam woldenga: I have a question on this HF Rigg DX-SR8 I did the modification put when i go to test the radio it works great usb and lsb but AM it slams. RADIOHF - Icom 718 w UT-106 DSP Receive Unit: No known mods or problems.
